The ultimate guide to a secret Barcelona by literary writer Ignacio Vidal-Folch. Discovered and re-discovered places, illustrated with photographs by Txema Salvans.

Unlike any other city travel guide, Barcelona Secret Museum proposes a view of the city from the subjective perspective of a writer. His contemplative, humorous, and beautifully descriptive text guides the reader through 80 sites, monuments, squares, buildings, as well as shop windows, hidden streets, poor and desolate neighborhoods, walls of posters and street art; always with fascinating cultural commentary and universal references to the history of art, cinema and literature. Each spot visited becomes a piece of a universal puzzle with poetic as well as tongue-in-cheek connections. Street plot converges with literary plot through famous quotes, forgotten verses, and recalled images of great works of art and cinema, always with a playful sense of humor. Illustrated with the extraordinary photographs of Txema Salvans, this book is a homage to the city's diversely rich and international urban culture.
